

CBCAP

Community-Based Child Abuse Prevention

Amy Meek, Kansas Children's Cabinet

Megan Leopold, Center for Public Partnerships and Research

Established in 1996 under
Title II of Child Abuse
Prevention and Treatment Act

FY 2018

\$687,889 Federal CBCAP funds were allocated to 6 local and one statewide grantee. Cabinet contributes match dollars, and each program provides a 10% minimum match

**Funds initiatives that work to
strengthen and support families
before abuse has occurred**

CBCAP is Unique

A group of innovative programs designed to meet the needs of their community

Complete a community needs assessment and identify how they will meet unmet needs

Prioritize partnerships and collaboration

Provide outreach to special populations (fathers, families at risk for homelessness, adult victims of abuse and neglect)

Create a data collection plan for participation in evaluation process

A Variety of Services

Programs are designed to meet the unique needs of their community

Site Visits Feb. 2019

- Learn about program challenges and successes
- Listen for ways we can support programs
- Discuss experience with data collection
- Learn about changes to the program or services provided

Day 1 Wichita — Kansas Children's Service League

CRISIS NURSERY

- Quality child care with licensed providers
 - Parent training and support
 - Connection to community providers
-
- Connect families to child care and work with community partners to ensure a good match for family and child
 - Partnered with a new home-based child care provider who provides care in “off hours” to help meet this growing need

STATEWIDE GRANTEES

- The Parent Helpline launched an app for greater accessibility to families
- A “train the trainer” model for Trauma –informed trainings will increase the availability of trainings statewide
- Child Abuse Activities throughout April

Day 2 Paola and Topeka

CIRCLE OF SECURITY

- Parent education
- Parent-child interaction support
- Home visiting

- Collaborating with a local homeless shelter and increasing outreach in Franklin Co
- CBCAP allows connection with populations they would not typically be able to reach

DRUG ENDANGERED CHILD

- Intensive case management
- Substance abuse treatment assistance
- Home visiting

- Reach new moms as early as possible by coordinating with hospital intake centers
- Opportunities for families to connect, have fun, and learn
- Offer a moms group focusing on infant care and development

Day 3 Pittsburgh

RESPONSE ADVOCATE

- Accompany police officers on calls
- Offer case management and referrals
- Provide home visits/parent education

- Drug violations and overall calls for police intervention have increased in Pittsburgh
- Received the Outstanding Service Award from the Pittsburgh Police Department

Day 4 Wyandotte

HEALTHY PARENTS, HEALTHY KIDS

- Parent support groups
- Adult support services
- Fatherhood program

- Individualized outreach and on-site services to residents of 2 public housing complexes
- Created a new class for Somali families to enhance knowledge of child development and build connections within the community

Day 5 Marysville

FAMILY SUPPORT PROJECT

- Homelessness/transitional housing
- Targeted case management and Home visiting
- Love and Logic classes

- Pony Express Partnership is located in a campus with other community providers, increasing access to resources for families and communication between programs
- Expanding their service reach into Washington County and working to build relationships in those communities

BACK IN LAWRENCE

- Followed up on questions
- Made changes to quarterly report based on feedback
- Connected programs with supports to participate in statewide needs assessment

KEY FINDINGS Common Measures Evaluation

Kansas CBCAP is serving exceptionally vulnerable families

82% of families earn less than \$20,000 a year

64% of caregivers served by CBCAP have a high school diploma or less

73% had trouble affording needs each month

46% had their food run out before they had money to buy more

KEY FINDINGS Common Measures Evaluation

Families engaged in CBCAP services are making positive changes

Protective factors increased

- Families showed a significant increase in the protective factors that decrease a family's risk of child abuse and neglect

Home and family environments improved

- Number of families in a supportive home environment increased from
 - 20% at pre-test to 50% at post-test (HOME IT)
 - 48% at pre-test to 76% at post-test (HOME EC)

Parenting behaviors increased in quality

- Families assessed with KIPS showed improved scores on 100% of the 12 subscales from pre- to post-test
